SAFE
Network

The service that pays you!

- You provide computing resources to the network.

- As your resources are used, you receive safecoin from the Network.

The service that pays you!

- You provide computing resources to the network.

- As your resources are used, you receive safecoin from the SAFE Network.

By providing your unused computing resources to SAFE you will be paid in a network token, called safecoin.

- You provide computing resources to the network.

- As your resources are used, you receive safecoin from the Network.

- Below is a code sample.

```
print("This is a code sample");
```
